## フランス パリ ベルヴィル

かつてはパリ郊外の村だったベルヴィルは、今では周りから人々の集まる活気に満ちた地区になっています。美味しい中国料理や北アフリカ名物のクスクスが食べられます。ベルヴィル公園に上れば、パリーの眺めが楽しめます。パリー高い場所はモンマルトルと思われがちですが、実はベルヴィルの丘がパリで一番高い地区になります。ベルヴィル大通りの朝市はパリで1、2を争う安さで人気です。

## ベルヴィル公園

ベルヴィル公園はベルヴィル大通りを離れて東へ向かい、丘を上ったところにある丘陵地帯の公園です。1992年に開園しました。園内に入り階段を上行くと、不意に視界が開けます。一番上は、標高200メートルの高台!パリで一番高い公園です。エッフェル塔やノートルダム大聖堂、アンヴァリッドなど、パリのパノラマを静かに観ることができます。ここからのパリーの眺めが美しいことから、「美しい街」という意味のBellevilleがこの地区の名前になったと言われてます。すぐ後ろにはフランス映画「赤い風船」で使われたパリで一番眺めのよいであろうアパルトマンが残っています。モンマルトルの丘に比べて、あまりに人の少ない「ベルヴィルの丘」は、パリーの隠れた人気スポットなのです。そのせいか、ここはエリック・ロメールの映画のロケにもよく使われています。

## 活気にあふれるベルヴィルの朝市

ベルヴィルはパリ20区にあります。もともとはパリ郊外の村でしたが、セーヌ県知事オスマン男爵によって1859年にパリに併合されました。パリではモンマルトルの丘に次いで2番目に高い場所です。パリーの眺めが素晴らしいことから「美しい街(Belleville)」を意味するベルヴィルと名付けられたといわれています。

ベルヴィルの朝市はパリの中でも一、二を争う安さと活気で人気があります。ベルヴィルの中心であるベルヴィル大通りの中央分離帯に長く続く朝市の屋台は永遠に続くのではないかとと思うほど長い。果物、野菜、魚、チーズ、ヨーグルト、はちみつ、衣料品、石鹸、お菓子、日用品など、生活に必要なありとあらゆるものが売られ、

### 1. Fresh Milk

We use Original fresh milk

### 2. Batter

We separate egg yolks from egg whites one by one by hand. Blending the egg yolks with specially selected milk and high grade wheat flour, we create the most consistent batter.

### 3. Meringue

Upon order, we whip up the meringue component into the batter, and grill each and every pancake tenderly.

### 4. Pancake

Soft and fluffy pancake is shaped like the full moon and stacked to make the millefeuille.

### 5. First taste it as it is

New made-to-order pancakes taste great on its own! Please try it without adding any condiments.

### 6. Fresh cream

Original fresh cream with a unique percentage of fat content is blended smoothly into our batter to create a uniquely refreshing taste. And of course we are making at the shop every day

# Tea

## Okinawa Tea Factory

It all started with red soil that only the gods could have fashioned.

The characteristic red soil of Okinawa nourishes the mineral-rich tea leaves, which basks in abundant sunlight. Highly recommended to accompany your millefeuille pancake.

## Weather

Okinawa is within the "Tea Belt Zone", 30 degrees north latitude to the southern end, with almost the same latitude as the Assam area in India. The sunlight Okinawa receives is among cities in Japan, one with the strongest ultraviolet rays that is indispensable in the making of tannins in great tea.

## Organic Cultivation

Black tea trees grow in environments fraught with pests and weeds, yet in the process of adapting themselves, the trees increase activities that produce anti-oxidants, creating aromatic leaves. We carefully choose the soil to grow the trees organically, in order to bring out the best in the leaves. The resulting black tea embodies the abundance of the soil that gave it life.

## Soil and Water

Okinawa's fertile red soil is the same soil in Sri Lanka, the mecca of great black tea. The soil is rich in minerals and coupled with pure spring water the product is a high quality tannin-rich tea. The resulting black tea embodies the abundance of the soil that gave it life.
